ahn *myTip*®

Tecan® Type Robotic Tips

Exceptional results when paired with LiHa® Arms.

Versatility - whether you are working with the Freedom EVO®100, 150, or 200 with Liquid Handling Arm, or the Freedom EVO®75 8+1, when it comes to automated liquid handling, nothing surpasses the AHN Robotic Tips for Tecan®.

Premium-grade virgin polypropylene - durability and reliability

Tips options - carbon-embedded conductive black or clear tip

Polyethylene filter - effectively prevents aerosol contamination

Made from USP class VI resins - and certified free of Endotoxin, Heavy Metals, RNase, DNase and DNA free

Pick from non-sterile, sterile and filtered sterile formats - depending on your application

Manufactured in ISO-certified 9001 and 13485, 100K cleanroom facility - to meet the highest quality standards

Validated - on the actual instrument for which the tip is created, to ensure sea mLess integration

Colour-coded polycarbonate tray - quickly identify volumes

Packaging - blister packs / eco-friendly flip card box
