CAPP Wash

MICROPLATE WASHER

Whether you work in a research or clinical laboratory, the compact CAPPWash Microplate Washer is the ideal washing tool for small scale immuno assays. Fitting into even the tightest budget, it is the perfect alternative to dependence on department washers for washing microplates and strips.

Features

- Performs uniformly and efficiently every time
- Washing is simple – lower the tubes into the well, push the knob to fill and release the knob to empty. Repeat for desired number of washings and move on to the next row
- Matches all well types – the washer can be set to the desired depth by simply adjusting the two finger screws found on either side of the tubes
- CAPPWash is available in 8-channel, 12-channel and 16-channel models
- Produced from high-grade stainless steel and polypropylene, the washer is fully autoclavable as well as highly resistant to aggressive chemicals.
- Unique two-in-one design whereby each tube consists of an inner tube that releases the distilled water washing solution into the wells for rinsing, while the outer tube vacuums away the liquid upon completion of the washing procedure
- The vacuum pump is available for 115V and 230V connections
- No programming required
- No electrical wiring connection

Ordering Information

Cat. No.	Description
W-8	CAPPWash 8-channel
W-12	CAPPWash 12-channel
W-16	CAPPWash 16-channel
WP-115V	Vacuum pump 115V
WP-230V	Vacuum pump 230V
WB-1	Bottle for washing solution
WB-3	Waste collection bottle
WB-4	Vacuum trap
WB-1000	Silicon Tubing (1 metre). Recommended to order 3 metres
